Krystian Laskowski

Warsaw, Poland · krystianlaskowski1@gmail.com · 500622734 · https://klaskowski.github.io/

Bio

Krystian is a Full-stack Web Developer, Coding Trainer and Hobby investor. He strives to be "Multiplier", not just a maker. In his 7 years in the industry (and coding for 15 years in total), he took part in 11 projects with millions of users for customers from US (both Silicon Valley and Wall Street Banking), Germany, Netherlands, Poland and even South Africa. What drives him is an infinite passion for solving people's problems using the power of brain and software combined.

Technologies overlook

Main programming languages:	Java, Typescript
Application types:	Single page applications, Microservices
Databases:	OracleDB, MySQL, MongoDB, Solr, ElasticSearch
Frameworks:	Angular, React, Spring Boot, ExpressJS
